# PRODUCT CATALOG

TASTE OF TRADITION SINCE 1884

# A tradition that obliges

Toruńskie Wódki Gatunkowe is a company with over 135 years of history. The alcohols produced here were already known and rewarded in Europe before the World War I and they were also exported to Africa and Asia.

Today, in buildings that remember those times, we continue the work of the founders of the Toruń plant and a few hundred years of tradition of producing Polish vodka – as one of the last producers with the domestic capital.

In our factory we use water from our own abyssal intakes, selected distillate and macerates made on the basis of original recipes. The high quality of the spirit for which we are famous is due to the unique in European scale of 5-column rectification apparatus and the experienced staff.

The range of brands and products, which we are proud to present in this catalogue, is constantly developing – drawing the best from the tradition, we want to create the future of the Polish and global strong alcohol market.

# The power is in the detail

The final quality of our products and the benefits we offer our customers consists of many elements.

From the selected list of suppliers, through the production process to packaging design, every detail matters to us and creates a market advantage of Toruńskie Wódki Gatunkowe.

## Polish capital

We are one of the last vodka producers with the domestic capital. We are proud to continue Polish traditions.

## Carbon filtration

Filtering station with active carbon, thanks to which we obtain a velvety taste of our alcohols.

## Polish suppliers

Our grain and potato spirits are made from raw materials from selected Polish agricultural distilleries.

## Original recipes

Developed on the basis of years of experience and based on the original taste.

## Quality of raw materials

Grains and potatoes for distillate production do not contain GMOs and pesticides, additionally we monitor the quality of raw materials at our suppliers on an ongoing basis.

## Own macerates

For fruit, herbs and spices, which we prepare ourselves to obtain a deep, original taste of our products.

## Production facilities

A 5-column rectification unit and a modernised plant, unique in Europe.

## The ageing process

We give our alcohols the right time to harmonise the aroma and taste, which is essential for the ripening of the beverages.

## Abbyssal intakes

It has a slightly alkaline reaction, favourable to high quality vodkas, obtained from own, chalky intakes up to 220 metres deep.

## Limited production

Small production batches allow us to obtain satisfactory quality.

## Demineralisation

Our own demineralisation station additionally increases the parameters of extracted water and thus the quality of products.

## Unique packaging

Properly selected bottle designs and original labels emphasize the uniqueness of our products.

# Bottling service under your brand name

We have an extensive experience in producing private labels of spirits for our customers. Creating our own product, we provide our customers with a comprehensive service, starting from preparing a recipe in our laboratory, making taste samples, support in choosing a bottle and label design, up to the finished product.

We offer our clients assistance and all kinds of advice on the alcohol market. Our alcohol has already left our production lines, under own brand, for European countries as well as for South America and Asia. We cooperate with both individual clients and restaurants, distributors and large foreign chains.

Our undoubted advantage is the fact that our offer includes single grain spirits such as: Potato, Wheat, Rye, Barley and Spelt. In our offer we have a wide range of flavoured vodkas, but we do not close ourselves off to the needs of our customers. Our database contains over 200 macerates for fruit, vegetables and spices, from which we can compose almost any taste that will satisfy even the most demanding palate.

# TORUŃSKA

## TRADITION ANEW

Toruńska vodkas include clear spirits and flavoured vodkas which have been produced for generations in the City of Copernicus.

Their time-tested recipes based on high-quality grain spirits and crystal clear well water are a guarantee of success. Traditional flavours with a modern twist. Perfect as is, or in one of four available flavours. Their unique bottles and seals are the hallmark of the Toruńska brand.

Our own source of deep well water from the Cretaceous layer 220 metres deep.

High quality spirit, distilled in a 5-column still which is unique in Europe.

Macerates which we prepare ourselves.

# RETMAN

## ALWAYS FOR A PURPOSE

The history of the Vistula River is a rich tradition of the river transport and trade, which dates back to the Middle Ages. The commercial float was guided by a retman who showed the ships a safe route. Inspired by the past, we have created two unique pure vodkas with a volume of 40% and 50%.

Our own source of deep well water from the Cretaceous layer 220 metres deep.

High quality spirit.

5-column still which is unique in Europe.

Time to harmonise aroma and taste during the ageing process.
